Applications and Inspiration

Risk-Reduction Flooring and Stair Treads

Features and Benefits

With the many features and benefits of C.I. Takiron slip-resistant sheet and stair treads, it's easy to understand why people are finding new applications for them every day!

- Provides a comfortable yet slip-resistant surface for bare feet, soft/hard-soled, or socked foot traffic
- Superior color retention and fade/weather resistance for indoor or outdoor applications
- Wet or dry, sheet and stair treads exceed the ADA requirement for slip-resistance - even for ramp usage
- Maintenance is as easy as mop/brush or pressure wash
- Anti-fungal for safe safe and hygenic applications
- Available as glue-down sheet or loose lay solution for temporary use or for difficult substrates
- One-piece nosing, tread, riser allows for an easier, cleaner, and more cost effective installation
- Colors coordinate between product lines
- Treads available with either a color coordinating or yellow nosing

Product Application Chart

The following list of applications is provided to aid in understanding where Takiron products may be used. This list is subjective and is predicated upon the adherence to proper installation techniques; specific location of installation; level of foot traffic; and the type and professional level of maintenance practiced on-site. As there is a wide range of variables within an environment and the characteristics of each application may vary significantly, please consult with your CBC® Flooring sales representative to determine which CBC Flooring product is appropriate for your installation.
